

MJP EasyClean System

For the ProJet® MJP 2500 Series*

- Convenient, fast and automatic turnkey removal of support material from plastic and elastomeric parts produced on ProJet MJP 2500 3D printers
- Two warmer units (bulk wax remover and fine wax remover) use steam and EZ Rinse-C to melt wax supports away, without manual labor
- Intended to operate in a typical office environment, resting on a table, without objectionable noise or odor, and without requiring special ventilation or equipment, only requiring access to a sink
